PREFACE.

THE admirable Collection described for sale purposes in this Catalogue is the outcome of many years of patient research. It does not vie in bulk with the Montagu or Murdoch Collections, which covered nearly the whole field of English history, but is mostly concentrated in a certain period not so wide in extent. Mr. F. A. Walters found a special pleasure in collecting and studying the coins issued during a period of some 200 years after the accession of Edward III. No collection so remarkable for fine specimens of the coinage of the later Plantagenet and York and Lancaster reigns, especially that of Henry IV, has, we believe, ever appeared before in the auction room. It remains to be said that a collector of Mr. Walters' resources and ability does not engage in the pursuit without adding considerably to previous knowledge upon his subject. Publications upon some of the results of his researches have appeared from time to time in the "Numismatic Chronicle," and his work has brought a fresh light to bear upon perhaps the most interesting, and certainly the most troublous, period of English history.

* * * As Lundy Island, as a mint-name, has not yet received a recognised acceptance from numismatists, and the question is at present *sub judice*, it is necessary to state here that the well-known investigator of the coinage of the First Charles, Colonel Morrison, has discovered several cogent reasons for including Lundy Island as a place of mintage under that king, amongst which may be adduced the following: That Bristol having fallen into the hands of the Parliamentary forces in September, 1645, in that same year Bushell (the whilom mint-master of Bristol) wrote to

Lot 645A—*continued*.

the king that he would hold Lundy Island at his own charge, and not surrender without the king's permission. That there is a coin extant with A stamped over the BR of 1645. Also, that in 1646 Bushell was still at Lundy Island, and, after some months of correspondence, treated (July, 1646) with the Parliament as to terms of surrender, and that not until February 24th, 1646/7, did Bushell give up possession of the Island, retiring to Coombe Martin. Also, that as Bushell removed his men from Oxford to Bristol, so it may be inferred he transferred them to Lundy on the break-up of the mint at Bristol. The first clause of the Surrender Treaty was an Act of Oblivion to his servants.
